Introduction

Welcome to the medical catalogue from Craven Medical. We have improved and expanded our range of products to meet the requirements of today's healthcare industry. We will continue to develop new and existing product lines to fulfil the needs of the market.

As a UK manufacturer we are proud of our heritage and continue to manufacture the majority of products in our North Yorkshire factory. We have the experience and know-how to design and manufacture quality medical furniture and storage and handling solutions.

At Craven Medical we appreciate that “one size fits all” isn’t always the case. With this in mind, as well as the extensive standard product range, we are pleased to offer a bespoke manufacturing service to supply the perfect solution to meet your requirements. We will work with you from the initial concept stage, through to full installation if required.

We can also provide free site surveys, product demonstrations and installations. Please contact us for further information about these services. Certain products are on display in our product showroom, which is open to trade visitors. Please call us should you wish to visit our showroom.

It is our aim to provide quality, UK manufactured products which fulfil the needs of our customers, are reliable and easy to use and offer value for money. To help us achieve this we welcome your feed back and suggestions for further improvements.

We hope that this catalogue is useful for you and you are able to find the right solution for your needs. Please do not hesitate to contact us if this isn’t the case.

New Products

After thorough market research we have introduced a number of new products to offer a more comprehensive product range and to give our customers a greater choice.

We have introduced a number of products for use in ward environments, including chart boards and holders, leg rests and notes trolleys. Please see pages 2 - 4 for details.

We have also expanded our cylinder storage trolleys to offer a broader range and house a wider selection of cylinders. These can be found on pages 5 - 6.

We are proud to introduce the Medicare Plus and Ward Storage Racking ranges. The Medicare Plus trolleys are ideal for a variety of hospital environments and feature the innovative “glide and tilt” runner system for added tray security and “supertuff shatterproof” trays for greater strength and safety. Information on the Medicare Plus range is on page 35 onwards.

The Ward Storage Racking, on pages 76 - 80, also features a new runner system to ensure maximum tray security whilst still being easy to use. Ward Storage Racking conforms to HTM 71 standards.

We have also designed a range of Self Administration Cabinets to aid patients with storage and administering their own medication helping to maximise nurse time with patients. Please see pages 27 and 28 for more details.

Our catalogue features a host of other new products, but we are also delighted to offer a bespoke design and manufacturing service if you can't find the solution you are looking for. Please contact us for further information.

- Can be manufactured to specific requirements

Adjustable Leg Rest / Stool

The MFS is a height adjustable leg rest, which can also serve as a stool. The upholstered pad increases patient comfort.

MFS

- Height and angle adjustable stool / leg rest
- Upholstered pad with contours for comfort
- Height Range from 300 - 430mm
- Dimensions (W x D): 310 x 462mm

Bedside Furniture

Chart Boards

Our chart boards and holders are available in A4 notes and A3 x-ray sizes and come with either a square hook or wall mount fittings.

CB A4 30

A4 Chart Boards

- A4 plastic chart board
- Fitted with a spring loaded clip
- 30mm or 50mm square hook available

Part Number	Description	Dimensions (W x D x H)
CB A4 30	A4 Chart Board, 30mm Square Hook	230 x 34 x 377mm
CB A4 50	A4 Chart Board, 50mm Square Hook	230 x 54 x 377mm

CB A3 30

A3 Chart Boards

- A3 plastic chart board
- Fitted with a spring loaded clip
- 30mm or 50mm square hook available

Part Number	Description	Dimensions (W x D x H)
CB A3 30	A3 Chart Board, 30mm Square Hook	455 x 30 x 377mm
CB A3 50	A3 Chart Board, 50mm Square Hook	455 x 54 x 377mm

CH A4 50

- A4 chart board holder
- Manufactured in epoxy coated mild steel
- Designed with an open front for ease of storage and identification
- 270mm square hook
- Dimensions (W x D x H): 270 x 116 x 411mm

CH A4 WM

- A4 chart board holder
- Manufactured in epoxy coated mild steel
- Designed with an open front for ease of storage and identification
- Wall Mountable
- Dimensions (W x D x H): 270 x 136 x 411mm

CH X-RAY 50

- A3 chart board / x-ray holder
- Manufactured in epoxy coated mild steel
- Designed with an open front for ease of storage and identification
- 400mm square hook
- Dimensions (W x D x H): 400 x 152 x 379mm

CH X-RAY WM

- A3 wall mounted chart board / x-ray holder
- Manufactured in epoxy coated mild steel
- Designed with an open front for ease of storage and identification
- Wall Mountable
- Dimensions (W x D x H): 400 x 102 x 379mm

Cylinder Storage

Cylinder Storage

Our range of cylinder trolleys provides the ideal solution for the storage and transportation of a variety of cylinder sizes. Wall mounted cylinder racks are also available within this range. All our cylinder racks are available in stainless steel and epoxy coated finish (please suffix the product code with "S" for this product in stainless steel and "E" for epoxy eg. MCT E1 S).

MCT E1

- Cylinder trolley to hold 'E' cylinders
- Complete with anti-static castors
- Safety chain holds cylinder in place
- Dimensions (W x D x H): 943 x 320 x 240mm

MCT DE 12

- Cylinder trolley with 12 sections to hold 'D' or 'E' cylinders
- Non slip rubber base board to aid secure transportation and storage
- Complete with push handle at one end
- 4 anti-static castors supplied as standard
- Dimensions (W x D x H): 430 x 590 x 1000mm

MCWM E1

- Wall mounted cylinder rack to hold 'E' cylinders
- Safety gate holds cylinder securely in place
- Holder should be fastened to the wall at half the height of the cylinder
- Dimensions (W x D x H): 150 x 152 x 100mm

Cylinder Storage

MCT F1

- Cylinder trolley to hold 'F' cylinders
- Complete with anti-static castors
- Safety gate holds cylinder in place
- Dimensions (W x D x H): 480 x 400 x 1014mm

MCT G1

- Cylinder trolley to hold 'G' cylinders
- Complete with anti-static castors
- Safety gate holds cylinder in place
- Dimensions (W x D x H): 505 x 440 x 1060mm

MCT FG1 STAB

- Cylinder trolley to hold 'F' or 'G' cylinders
- Modified with 2 additional castors, giving extra stability
- Dimensions (W x D x H): 505 x 710 x 1060mm

MCT FG2 STAB

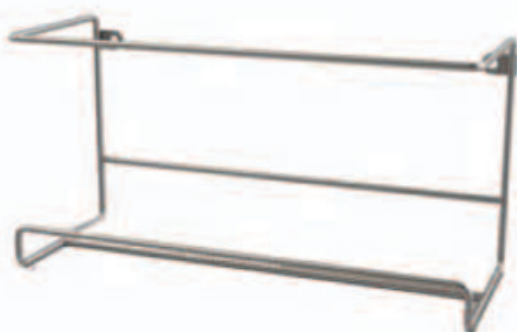

- Cylinder trolley to hold two 'F' or 'G' cylinders
- Modified with 2 additional castors, giving extra stability
- Dimensions (W x D x H): 715 x 710 x 1060mm

Dispensers & Racks

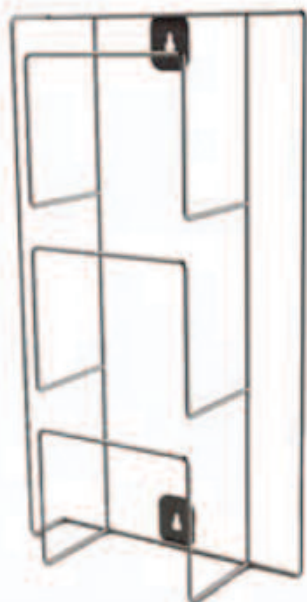

Box Glove Holders

Cravens range of glove box holders and apron dispensers are designed to offer optimum storage solutions, with various sizes and configurations available. We can also manufacture a four tier glove box holder to accommodate latex free gloves. Please contact us for further information. General Trolleys

We offer a number of standard trolleys which have benefitted hospitals and healthcare institutions for the last 25 years. Quality design and manufacture is at the forefront of everything we do at Cravens, which helps to ensure that our products continue to deliver on our promises from day one.

We do realise, however, that not all of our trolleys are suitable for all of our customers. Thanks to our experience and resources we are able to offer many of the standard trolleys featured to fit specific bespoke requirements.

We are also able to create unique designs as projects demand. Should you see any trolleys which don't quite fit your requirements, or want to discuss any bespoke requirements, please contact our Sales Department.

Utility Trolley

Our General Purpose Utility Trolley can be supplied with many space saving features, allowing this trolley to be utilised where space is at a premium.

MUT

Standard features include:

- A recessed lid for added work space
- 13 Amp plug

Procedure Trolleys

Medicare Plus

Available in three different heights and widths, our new Medicare Plus range has been designed to offer simple and safe storage for any healthcare application. Featuring the "Glide & Tilt" tray system, our trolleys are made up of A3 or A4 single or A3, A4 or A3/A4 configurations.

The Glide & Tilt system is used throughout the Medicare Plus range and offers many benefits over conventional tray and runner systems;

- Holds trays at an angled open position
- Allows easy access to tray
- Clear display of tray contents
- Combined with "Supertuff Shatterproof" trays makes for the safest storage system available

M+ SL A3

M+ DH A4

Medicare Plus

All of our Medicare Plus Trolleys come fully assembled with:

- A stainless steel recessed top as standard for ease of cleaning and to stop items falling off
- 100mm swivel castors (2 with total stop brakes)
- Corner bumpers as standard
- "Glide & Tilt" runner system

We also offer our trolleys in a number of coloured finishes to help distinguish them in various hospital departments.

Our Medicare Plus range features solid plastic coloured storage trays which are moulded in "Supertuff Shatterproof" High Impact Polystyrene (HIPS) or clear trays moulded in "Supertuff Shatterproof" ABS.

We can supply trays in a variety of colours to match the trolley frame. The colours available are:

- Clear
- Red
- Green
- Yellow
- Blue

These trays are available in three depths to allow total storage configurations. Further information about our trays is available on page 40.

A number of accessories are also available for Medicare Plus Trolleys. Please see pages 39 - 42 for details.

Procedure Trolleys

Compartment Trolley

Our compartmental trolley offers a great mobile storage solution for general medical consumable equipment, incorporating the latest in anti-tilt runners and shatterproof trays.

MBRT

- Compartmentalised trolley for storage and transportation
- 9 levels to accommodate a range of tray sizes and configurations
- Flat top as standard (optional sloping top shown)
- Sloping top increases overall height by 115mm
- Hinged doors secured open / closed by metal clasps
- Incorporates latest anti-tilt tray technology and "Supertuff Shatterproof" trays. For further information about this system, please see page 36.
- Dimensions (W x D x H): 600 x 500 x 1100mm

Phlebotomy Trolleys

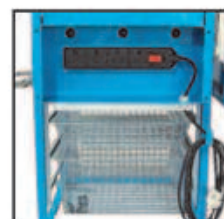

MSL/PHLE

PRE/PHLEB

- MSL/PHLE has pull out top shelf for additional work area, PRE/PHLEB has lockable drawer
- Accommodates sharps waste bin and clinical waste bag
- Holders can be folded away when not in use
- Recessed stainless steel unit top
- Complete with fully welded push handle
- Fitted with 100mm castors (2 with total stop brakes)
- Can be manufactured with hand gel holder
- Relevant size requirements to be confirmed prior to manufacture
- PRE/PHLEB supplied with electrical power point
- PRE/PHLEB earthed, not PAT tested
- Both trolleys supplied with 2 x MTR04, 2 x MBW04 and 1 x MBW08

Part Number	Description	Dimensions (W x D x H)
MSL/PHLE	Phlebotomy Trolley	591 x 550 x 883mm
PRE/PHLEB	Powered Phlebotomy Trolley	950 x 623 x 1051mm

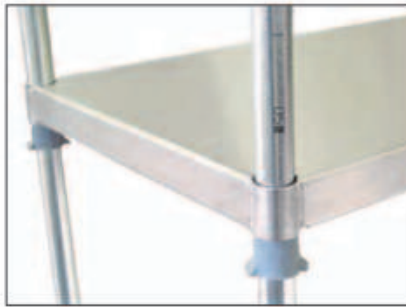

Shelving

Medi-Rack 5000

Medi-Rack 5000 has been at the forefront of Cravens Medical Shelving range for the last 25 years providing the highest standard for all storage requirements. Our extensive range of finishes is manufactured in the UK to ensure quality.

Epoxy Coated

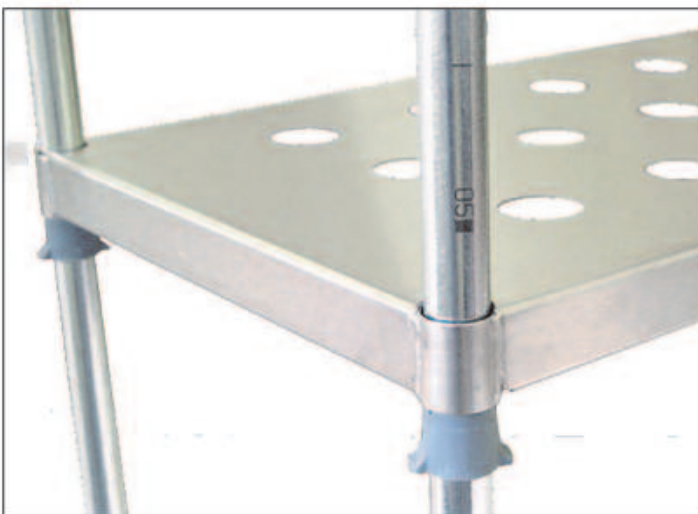

Solid Stainless

Stainless Wire

- Medi-Rack 5000 is our ever popular shelving range
- Providing outstanding storage solutions
- Available in an unrivalled choice of finishes and sizes
- Providing either static or mobile solutions
- Infinitely adjustable due to its unique design
- Totally hygienic, with smooth edges which improve ease and speed of cleaning

Perforated Stainless

Nylon Coated

Our ever popular nylon coated shelving offers an economical “all purpose” shelving solution, making it an ideal choice for medical applications such as ward storage, linen and laundry, refrigeration and freezers and general dry storage.

Shelving

Medi-track

Our high density Medi-track shelving system is the ideal solution to provide maximum storage capacity in limited space. The shelving and crank system have been designed to ensure maximum stability and smooth movement allowing ease of use when storing or retrieving stocked items.

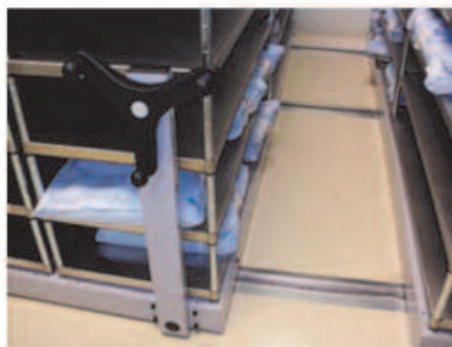

Please contact Cravens Sales Office to arrange for a free site survey.

Medi-track

“The best high density track storage system in the UK.”

- Provides 80% more storage capacity
- Surface mounted track suitable for most floor finishes
- Mobile and static plinths can house multiples of shelving i.e. side-by-side and back-to-back
- Any of our shelving finishes may be used with this system
- 12 month guarantee as standard, extendable with a maintenance contract
- Mobile bays carry 1000kgs (subject to floor type)
- Track and shelving are assembled by a Craven representative free of charge
- Each mobile base has a brake mechanism as standard
- This system can be adapted for uneven floors

As most mechanical track systems are tailored to your specific requirements, please call 01423 796200 for a free site survey and to arrange a meeting so that we can provide a quotation accompanied with a plan view layout.

Shelving

Aluminium

- Removable and washable infill panels
- Light weight anodised frame with modular construction
- Uprights combine to allow for continuous runs
- Shelf clips allow for additional units to be attached at right angles
- Castors can be added for mobile units

The below matrix is for a complete 4 tier unit. Additional configurations are available.

Please contact Cravens customer support team for comprehensive advice to suit your exact requirements.

Wrapping / Packing Tables / Height Adjustable

Our wrapping and packing tables are used for the wrapping of surgical equipment and instruments. Height adjustable tables have been developed to comply with the Disability Discrimination Act (DDA). They are available in manual and electric versions. Please prefix the code below with "E" for electrical and "M" for manual tables.

- Mobile, easy to use, height control
- Top made of 304 grade stainless steel
- Adjustable legs
- Comes with 12 month guarantee
- Electric versions supplied with mains plug-in
- Electric tables are earth bonded as standard
- Manual tables are supplied with crank handle

Medical Preparation Tables

We can supply a number of modular components, which added to our wrapping / packing tables creates a range of Medical Preparation Tables. These are the ideal all-in-one solution for the hygienic and sterile preparation of medical consumables and equipment.

Medical Preparation Tables can be created using static or height adjustable tables and are available in the following widths and depths :

Width - 1200mm, 1500mm and 1800mm

Depth - 600mm, 650mm, 700mm, 750mm , 800mm and 850mm

The following modular components are available:

- Under counter shelving
- Back frame
- Paper roll dispensers
- Baskets - shallow / deep
- 3 sided base frame
- Castors

The image above shows a mobile 1800 x 600mm wrap table with back frame, 3 sided base frame and 2 x baskets - one deep and one shallow.

Medical Preparation Tables

The image opposite shows a mobile 1800 x 600mm wrap table with under shelf, back frame, 3 sided base frame, 3 x baskets - one deep and two shallow and a paper roll dispenser.

Although modular in nature, all these components need to be specified at time of order. They are factory fitted and cannot be retro fitted.

Please contact our Sales Team should you require alternative configurations or to request further information.

Due to the specific nature of these Preparation tables, all prices are dealt with on an individual basis. Please contact Sales to discuss your bespoke requirements.

Part No	Description
MPT BF/ 12, 15 or 18	Back Frame for Wrap Tables 1200, 1500 or 1800mm

Sterile Services

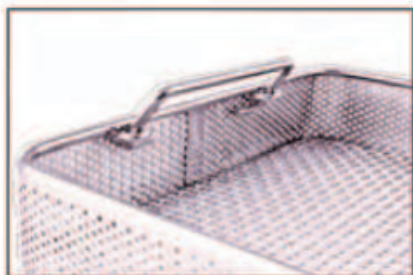

Surgical Trays & Baskets

We offer a comprehensive range of surgical instrument baskets and trays. Our instrument trays and baskets provide a high degree of protection for storage, transportation and sterilising of costly surgical instruments. Available in various sizes and designs that accommodate a wide range of surgical instruments.

- Manufactured from high quality stainless steel to offer strength and durability at an affordable price
- Designed with rounded corners and edges to avoid wraps being torn by sharp edges
- Backed by ISO 9001-2000 certification for use in infection control areas and sterile service environments
- Serve as a means for packing instruments and collection of soiled instruments
- They feature cross-hatch construction with spot wells at all cross points for superior strength
- Lightweight design eliminates sides and cross braces as well as corners or hidden areas that could attract build up of foreign deposits
- Baskets with handles completely retract to the interior of the basket to avoid any corner where dirt collects and dust traps

Side Perforated Din Baskets

Side perforated din baskets:

- Manufactured in stainless steel
- Electro-polished
- Burr free to protect wraps
- Side wall perforated to protect sharp instrument edges and tips from damage
- Cross-hatched flat bash mesh for durability
- Flat base ensures fast drying
- Meet all requirements of automatic washing and sterilisation of all kinds of instruments
- Retracting handles
- Lids are available

SSB1	Stainless Steel Surgeon Step Box	600 x 300 x 200mm

Ward Storage

Ward Storage Racking

Craven Ward Storage systems offer the perfect solution for secure and organised storage of medical consumables in conjunction with the flow of materials.

Our Ward Storage Units are fully compliant to HTM 71, stipulating that trays and baskets held in cupboards, shelving or trolleys to store medical sundries enable each product to have its own compartment and a stipulated stock level.

They are available as high or low, single or double column units with narrow and wide tray fittings. Castors can be added for mobile units.

The unique tray and runner system ensures maximum tray security whilst maintaining an ease of use. Pop in extension stops allow existing trays to be re-configured to fit all unit sizes.

Other accessories are available. Please see pages 79 - 80 for further information.

How to Order

All of the products in this catalogue can be ordered by emailing sales@craven-solutions.com or by faxing your order to 01423 869189. We are also happy to accept urgent telephone orders although we cannot be held responsible for any transcription errors which may occur.

Stock items should be delivered within 7 - 10 days, although an overnight service is available at extra cost. Standard delivery is 3 - 4 days. Made to order products are normally available for delivery within 3 - 4 weeks. Bespoke items may take longer. Please enquire with our Sales Representative when placing your order.

All orders should be received by Cravens as an official order with all relevant company and product data clearly marked.

All part numbers within this catalogue supersede previous editions.

For new accounts, the first order must be paid on a proforma basis. The account must be settled prior to manufacture of products. After the first order, customers can apply for a credit account, subject to credit insurance being obtained.

Our Sales Team will be pleased to answer any questions you may have and provide full product details. We also provide free site surveys to ensure you're getting the right product to fulfil your needs. Please contact us to arrange an appointment with our Area Sales Team or a free site survey.
