MORTUARY RACKING AND MORTUARY TROLLEYS

Our mortuary racking and mortuary trolleys provide versatile, practical and long-lasting solutions for a wide range of requirements, with bespoke options also available.

With space-saving design to maximise capacity, our mortuary racking and trolleys are precision-engineered to ensure ease of use and manoeuvrability. They are made from high-quality, durable materials that are resistant to corrosion and can withstand considerable weight and extreme temperatures. They are also extremely hygienic, with removable parts making them easy to clean and maintain.

Our mortuary racking is easy to assemble, and offers choice and flexibility to create the perfect fit for any space. Our mortuary trolleys are robust yet lightweight. The range includes both fully-welded and collapsible viewing trolleys, instrument trolleys with optimal storage, and easy-to-manoeuvre transportation trolleys.

From design and manufacture to installation and maintenance, here at Craven we have a long-standing reputation for high-quality, robust products. As a UK manufacturer with our own in-house design team, we can not only deliver on short lead times and at a competitive price point, but are also able to offer bespoke solutions if required. Contact us for more details.

MORTUARY RACKING

Our mortuary racking fulfils a wide range of requirements with a choice of free-standing, mobile, fixed height, adjustable height and even bespoke options to maximise storage capacity. Our specialist in-house installation team works across the UK to ensure our racking solutions perfectly fit the space for which they are intended.

- Choice of free-standing, mobile, fixed-height or adjustable-height units
- Bespoke options also available
- Range of sizes
- Single, double and multiple bays
- Stainless Steel or Epoxy Coated
